The contradiction in terms of Western civilization, however, was also made obvious right from the start. The role of religion in Leadership was vital in the ancient regimes. The civilization of the West, however, was not the result of some inevitable process through which other cultures will automatically pass. This history is highlighted by the rise of many different kingdoms and empires, each with contribution to modern western culture. Diplomacy, violence, warfare, public laws, and Arabic tradition played a crucial role in the building of the Islamic religion. The Western Civilization and Eastern Civilization have both changed the world with their ideologies in numerous ways. The debate that followed my talk revealed a broad and deep ignorance of the historical process by which the very values that encourage current criticisms of the Western experience came into being, taking them for granted, without comprehending their Western roots and their fragility even within the Western tradition. Therefore, when he is without virtue man is the most unscrupulous and savage of the animals. The Incan empire is known to be one of the largest empire to have existed. Cartwright. Discuss the world economy of the nineteenth century, explaining how it functioned and how the West benefited most from the global market involved. Most have tended toward cultural uniformity and stability; reason, though employed for all sorts of practical and intellectual purposes in some of these cultures, lacked independence from religion and the high status to challenge the most basic received ideas; the standard form of government has been monarchy; outside the West, republics have been unknown; rulers have been thought to be divine or the appointed spokesmen for divinity; religious and political institutions and beliefs have been thoroughly intertwined in a mutually supportive unified structure; government has not been subject to secular, reasoned analysis; it has rested on religious authority, tradition, and power; the concept of individual freedom has had no importance. Whether it takes the form of the unbridled claims of Pico della Mirandola, of the Nietzschean assertion of the power of the superior individual to transform and shape his own nature, or of the modern totalitarian effort to change the nature of humanity by utopian social engineering, the temptation to arrogance offered by the ideas and worldly

HISTORICAL ESSAYS WESTERN CIVILIZATION

success of the modern West threatens its own great traditions and achievements. This thematic concern is rooted in two sources.
